

## Introduction:

For the last 3 years, I have been developing and growing my own business - Hannah Cambridge Illustration a freelance watercolour Illustration business interested in packaging and design. As I grow with my business I've realised that working on my own isn't something I see for myself full time in the long run. I'd love to join a team working in a relatively creative field and being inspired to push myself and my abilities as far as possible within a team. I have come from a CGI Animation background with Python experience and programming for animation, as well as Graphic design and photography, I may not be the most up to date with coding but I am a fast learner with determination and I can bring creativity, innovation and customer service.

## Education:

University of West England, Bristol  
School of Animation  
2013-2016  
BA(hons) Animation 2:1

I specialised in CGI Character modelling, rigging and expression coding/node derived animation. I worked on projects with BBC Bristol, Royal Academy of Music London & The Bristol Science Centre

SERC Lisburn  
A-Levels / Level 3's  
Graphic Design, Photography & Ceramics  
Triple Distinction (A, A, A Equiv)

While in college I studied Art & Design I started a in-house Graphic design business with real clients, this business lasted 2 years, I named it 'Pixel Perfect'

GCSE's / Level 2  
Maths, English, ICT & Business.

## Hobbies & Interests

I'm a nerd no matter what way you spin it, I love games, animation and all things with digital detail, but I also adore our wildlife and as someone who volunteers with RSPB I also love to learn all about it. For me, my hobby is always in the details.

## Work Experience:

Hannah Cambridge Illustration  
Freelance Illustrator  
2018-current
